Contents of Volume 299

Vol. 299, Nos. 1–2 — November 1, 2004

Publisher's note 1

Editorial

On the need for catchment classification
J. J. McDonnell and R. Woods 2

Research Papers

Scale effect on runoff from experimental plots to catchments in agricultural areas in Normandy
O. Cerdan, Y. Le Bissonnais, G. Govers, V. Lecomte, K. van Oost, A. Couturier, C. King and N. Dubreuil 4

Bayesian system for probabilistic stage transition forecasting
R. Krzysztofowicz and C. J. Maranzano 15

Early karstification in a dual-fracture aquifer: the role of exchange flow between prominent fractures and a dense net of fissures
F. Gabrovsek, D. Romanov and W. Dreybrodt 45

Estimation of natural recharge and its dependency on sub-surface geoelectric parameters
R. Chand, S. Chandra, V. A. Rao, V. S. Singh and S. C. Jain 67

The spatial distribution of groundwater age for different geohydrological situations in the Netherlands: implications for groundwater quality monitoring at the regional scale
H. P. Broers 84

A GIS based distributed rainfall–runoff model
M. K. Jain, U. C. Kothyari and K. G. Ranga Raju 107

Modelling of macropore flow and transport processes at catchment scale
J. S. Christiansen, M. Thorsen, T. Clausen, S. Hansen and J. C. Refsgaard 136

Errata

Erratum to "Probabilistic/ensemble forecasting: a case study using hydrologic response distributions associated with El Niño/Southern Oscillation (ENSO)" [Journal of Hydrology 249 (2001) 134–147]
M. L. Anderson, M. L. Kavvas and M. D. Mierzwa 159

Erratum to "A groundwater-based, objective-heuristic parameter optimisation method for a precipitation-run-off model and its application to a semi-arid basin" [Journal of Hydrology 290 (2004) 243–258]
K. Mazi, A. D. Koussis, P. J. Restrepo and D. Koutsoyiannis 160

Vol. 299, Nos. 3–4 — December 1, 2004

Special Issue: Urban Hydrology

Editorial

Introduction to the special issue on urban hydrology
H. Andrieu and B. Chocat 163

Temporal and spatial resolution of rainfall measurements required for urban hydrology
A. Berne, G. Delrieu, J.-D. Creutin and C. Obled 166

Enhancement of precipitation data for small storm hydrologic prediction
S. R. Durrans, S. J. Burian and R. Pitt 180

Towards a roadmap for use of radar rainfall data in urban drainage
T. Einfalt, K. Arnbjerg-Nielsen, C. Golz, N.-E. Jensen, M. Quirmbach, G. Vaes and B. Vieux 186

Applying a GIS-based geomorphological routing model in urban catchments
J. Lhomme, C. Bouvier and J.-L. Perrin 203

doi: 10.1016/S0022-1694(04)00460-3

Assessing urban hydrologic prediction accuracy through event reconstruction
B. E. Vieux and P. B. Bedient 217
Modelling urban snowmelt runoff
C. Valeo and C. L. I. Ho 237
The role of soil in the generation of urban runoff: development and evaluation of a 2D model
E. Berthier, H. Andrieu and J. D. Creutin 252
Near-natural stormwater management and its effects on the water budget and groundwater surface in urban areas taking account of the hydrogeological conditions
P. Göbel, H. Stubbe, M. Weinert, J. Zimmermann, S. Fach, C. Dierkes, H. Kories, J. Messer, V. Mertsch, W. F. Geiger and W. G. Coldewey 267
Potential and limitations of 1D modelling of urban flooding
O. Mark, S. Weesakul, C. Apirumanekul, S. B. Aroonnet and S. Djordjević 284
Analysis and modeling of flooding in urban drainage systems
T. G. Schmitt, M. Thomas and N. Ettrich 300
The experimental urban catchment 'Le Marais' in Paris: what lessons can be learned from it?
G. Chebbo and M. C. Gromaire 312
Experimental and numerical analysis of the scouring effects of flushing waves on sediment deposits
A. Campisano, E. Creaco and C. Modica 324
Real time control of urban wastewater systems—where do we stand today?
M. Schütze, A. Campisano, H. Colas, W. Schilling and P. A. Vanrolleghem 335
Screening for real-time control potential of urban wastewater systems
A. I. Zacharof, D. Butler, M. Schütze and M. B. Beck 349
